# LEADERSHIP

## MEET THE VISIONARIES BEHIND TECHENHANCE

**ANKIT TAYAL**  
FOUNDER & CEO

A journey that started with passion for Technology, also led Ankit towards mastery of Business. With 16+ years of experience in the IT industry working with organizations like Accenture and PwC he has gained mastery over the crafts of leadership, customer relationship management & business partnership. He dreams to build a world that is sustainable and evolves with new possibilities.

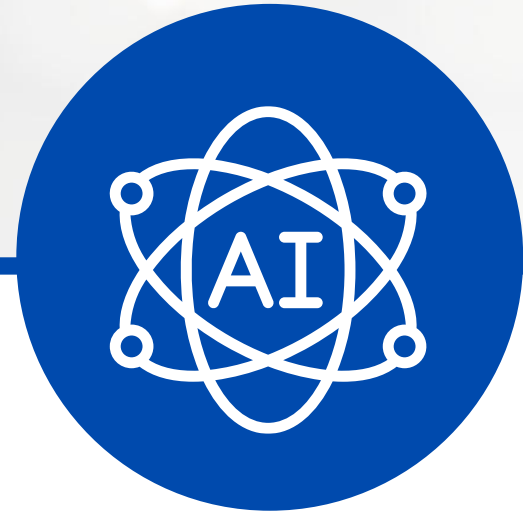

**KRISHNA GOSWAMI**  
CO-FOUNDER & COO

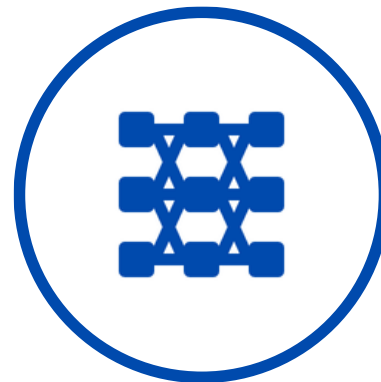

He is an AI-expert who understands the day-to-day operations of an IT firm so deeply. With an engineering degree from NIT & MBA in the field of AI and 20+ years of experience of working with organizations like Ericsson, IBM and HP, Krishna brings all the right skills to the table. He is striving to build a technologically-equipped society.

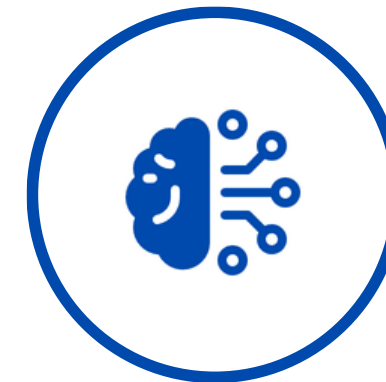

# OUR AI CAPABILITIES

**Generative  
AI**

**NLP**

**Computer  
Vision**

**Cognitive  
Services**

**Chatbot  
Development**

**AI Assisted  
Development**

**End-to-End Data  
Management**

# AI TECHSTACK WE USE

Python

OpenAI

Gemini

TensorFlow

Databricks

PyTorch

LangChain

Mistral

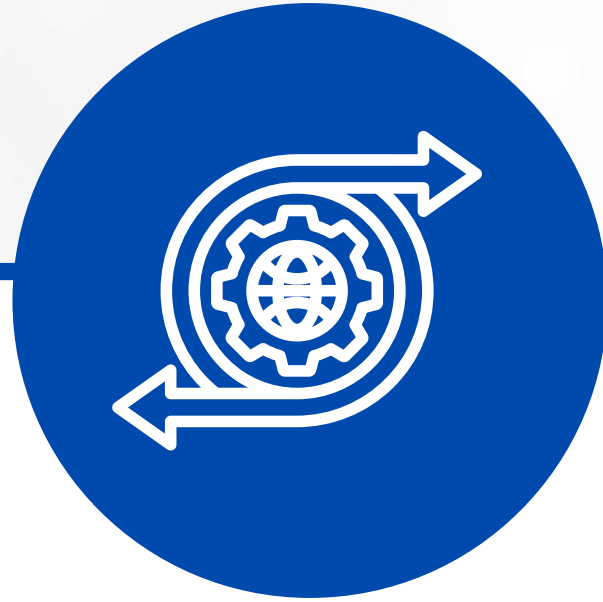

OpenCV

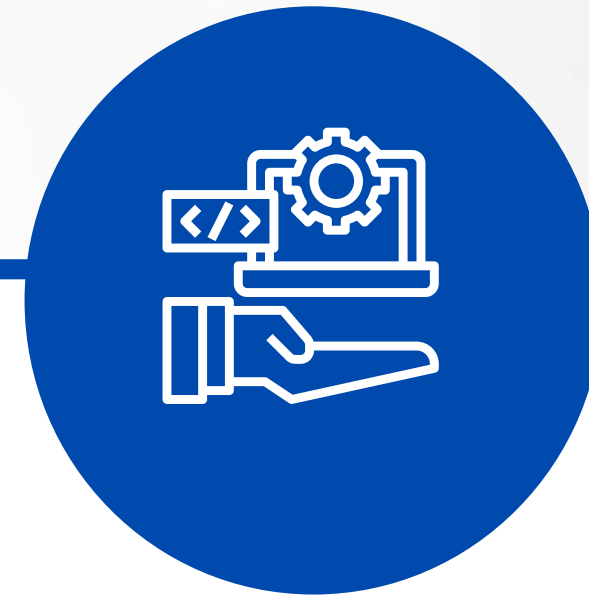

Hugging Face

## OTHER CAPABILITIES

### **Transformations**

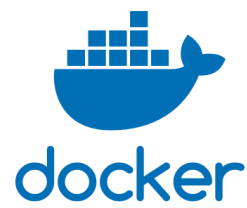

- Cloud Computing
- Web Apps
- Mobile Apps
- Blockchain
- IOT

### **Services**

- DevOps as a Service
- Architecture as a Service
- Managed Services

## OTHER TECHSTACK WE USE

**Terraform**

ANSIBLE

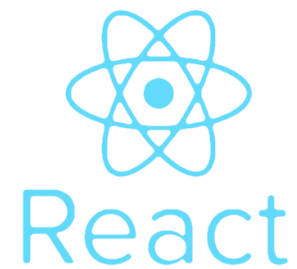

Grafana

GitLab

**Jira**

## SUCCESS JOURNEYS

### LEGAL DST

**Ask** – Legal professionals faced delays and low-quality responses due to time-consuming, inefficient searches in vast legal databases

**Solution** – An AI-driven platform delivers precise Supreme Court rulings via a conversational search interface.

**Benefits** – *Saved 50%-time, improved search accuracy by 80%*, and offered affordability for streamlined legal research.

### SMART Bot

**Ask** – Bank needed an efficient, digital avatar solution to manage and process high volumes of pre-processed loans.

**Solution** – An avatar-based LLM chatbot that processes loan data, interacting with users via text and voice inputs.

**Benefits** – Improved user experience, accelerated loan processing, and *reduced 15% manual workload*, boosting efficiency and response times.

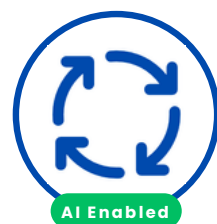

### MSME Loan App

**Ask** – Bank needed a solution to give MSME Loan to their customers directly & through partners.

**Solution** – We created a Mobile App & SDK. Also, we have given agent assisted app so that their agents can assist.

**Benefits** – Less dependency on manual work. Scaled MSME loan business to at least 25%. Their agent can go to ground and just in 10 mins can give loan.

### Other Solutions

### Doc Scanner

### Automated Speaker Diarization

### Live Feed Analytics

# WHY Engage us

1

Customer Centric Focus

2

Sustainability Driven Practices

3

First-Time Right Execution

4

Experience our Work

5

Innovation Driven Mind

along with driven by **Trust, Agility & Quality**

# & THE BEST PART?

---

We believe in shaping *your* ideas into reality.

It was a great experience working with Ankit and his team! They have really smart people on board who are real problem solvers! Apart from the allocated resources we always have seniors connected to solve any blockers. Anyone looking for IT Services, specially AI related IT services shall surely consider Ankit and his team.
